

WVPST

HEALTH INSURANCE INFORMATION AND WAIVER

West Virginia Public Service Training (WVPST) does not provide individual health or accident insurance; therefore, students should be covered by a health insurance before entering the Emergency Medical Technician Program. Students are responsible for any expenses incurred as a result of illness or accidents including those that might occur in clinical practicum courses at the affiliates. The clinical affiliates of the EMT Program do not provide health or accident insurance for students, but will administer emergency treatment if required. Students are required to report all accidents which occur at the classroom site or clinical affiliates. Treatment will be given based on WVPST or clinical affiliate guidelines. Students and/or their family are responsible for any and all costs incurred. All students in the EMT Program will have placed in their student file an incident report form concerning any accidents which may occur.

If students do not have their own policy or are not covered by their parent's policy, it is the student's responsibility to obtain insurance if he or she is not covered.

I have read and understand the Emergency Medical Technician (EMT) Program policy concerning accidents and health insurance.
