WORK EXPERIENCE: 1982 to present

### **NORTH FORK FIRE DEPARTMENT**

**Deputy Chief**  
**Jul 2003 – 2013**  
**Fire Commissioner (Chairman)**  
**June 2007- 2013**

- ❖ Function as Fire / EMS Officer at the level of Deputy Chief for 2 station, Rural Combination Fire Department in the Rocky Mountains of Central Idaho. 2400 square mile response area (Fire District)
- ❖ Responsible for personnel training and vehicle deployment
- ❖ Respond to EMS and fire calls within the fire district
- ❖ Risk Manager

Fire District Commissioner (elected official) responsible for development and implementation of fire based EMS system. Chairman of Fire Board charged with the management and administration of North Fork Fire Department

**ONSCENE TRAINING ASSOCIATES / FIVE STAR FIRE TRAINING, LLC**  
**International Operations Director**  
**Fire Service Instructor**  
**Consultant**  
**Jan 2010 – present**

- ❖ New / Electric Vehicle Extrication and Fire Control Specialist - Development and implementation of (5 Star Rated new vehicle technology) National Training Program. Offered internationally to Fire Departments and EMS providers with the purpose of bringing 5 Star Rated

auto makers together with Fire / EMS rescuers. New car technology presents never before seen challenges and dangers to fire and EMS personnel during motor vehicle accident, electric vehicle (LI Battery) and extrication calls. These challenges and dangers are causing significant rescuer injuries, as well as a new breed of occupant injuries. The 5 Star Crash Course teaches reformulation of rescue strategies and tactics, in addition to educating students about vehicle construction changes, high tech metallurgy, Class D and Lithium Ion battery fires occurring in today's (and tomorrow's) vehicles.

- ❖ Coordination of traveling (national and international) fire service training programs, including live fire, auto extrication, and EMS related programs.
- ❖ Global Emergency Response and Preparedness Consulting Services. Emergency plan writing, plan review and update, plan validation, and real time plan testing exercising (FEMA, CDC, and WHO)

### **CHAMPION RESCUE TOOLS**

### **TRAINING DIRECTOR / R&D April 2008- Jan 2010**

- ❖ Development and implementation of national extrication training program designed to showcase company products as part of a new vehicle technology education program. Worked with 5 Star crash rated automakers and other noted extrication / rescue related equipment manufacturers to develop program designed to help firefighters overcome the challenges posed by the toughest new vehicles on the market today.
- ❖ Worked closely with factory engineers and fabricators in research and development / field testing, on the evolution of Champion's BEAST product line, as well as on the yet to be released Super Beast line, and new coupler technology. Also worked as fire department liaison between factory and large prospective clients, and their tool committees.
- ❖ Worked all facets of producing major trade show displays for events such as: FDIC, FirehouseWorld, and Fire-Rescue International (I-Chiefs)

### **FIRE APPARATUS MAGAZINE**

### **STAFF COLUMNIST April 2009 – present**

- ❖ Staff Columnist assigned to write monthly articles on innovations and advances in rescue / extrication equipment, techniques and challenges within the fire service. Print Column: "To the Rescue", and Web Column: "Rurally Speaking".
